DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-13, 16, 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 11-13, 16, a phrase "order/orders of magnitude" appears to be unclear and indefinite as to what is actually claimed.

Regarding claim 13, which stated "active output impedance is between 1-10 Ohms". However, if the "active output impedance is 1 Ohm", the conditions as stated in claims 11 and 12 do not satisfy. Also, should claims 11 and 12 be independently from one another?

Regarding claim 17, note independent claim 16 stated "combination of said power amplifier and feedback control loop does not exceed said output impedance of said high frequency amplifier by more than an order of magnitude." However, dependent claim 16 defined "combination of said power amplifier and feedback control loop has an output impedance between 5-10 Ohms" which is greater than 1. As such, claims 16 and 17 are contradicted to one another.

Allowable Subject Matter

Claims 1-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
